

# Open Top Enclosure Bracer *Installation Instructions*

Product Code: **HAN006**

Open Top Bracer x1

Screw x2

Washer x2

**IMPORTANT:** This component must be used when there is no roof on the enclosure. It braces the wall panels and gives the enclosure the strength that a roof would do.

1. Fully assemble all wall panels of the enclosure before installing this component.
2. Position the Open Top Wall Bracer from one side of the enclosure to the other side.
3. Align the bracer with the pre-drilled screw holes on the wall panels.
4. Secure the bracer in place using the provided screws and washers.
5. Ensure all screws are tightened firmly.

Refer to the photo at the right for correct placement.
